GAETZ & GAETZ
GENERAL MERCHANTS - RED DEER.

The Premier Coming.

Dr. Clark, M.P.P. for Red Deer constituency, was in town last Thursday making arrangements for the visit of Sir Wilfrid Laurier to Red Deer on August 10th. He will be here over night, apparently, and will be given a reception by the Liberal association. We should like to see this reception general.

School Board

The regular meeting of the School Board was held Wednesday evening last. Members all present.

Revs. Moore and Huestis addressed the Board on behalf of the ministers of the town, asking that the Lord's Prayer be said and a selection from the Bible be read in the school rooms each morning. The following is the petition presented.

"Recognizing that a religious basis is the foundation of character, and that to a nation professing Christianity the volume of Holy Writ contains the rule of life, we, the undersigned ministers, respectfully petition that (A) The saying of the Lord's Prayer by all the teachers and scholars, and (b) The reading, without any comment, of a portion from the Bible, such portions to be taken from a printed syllabus of readings selected by the Board of Trustees, form the commencement of every school day in every class room.

The Board will deal with the question at the next meeting of the trustees.

A large number of applications were received for the vacancy caused by the resignation of Principal McLean. The application of Geo. W. Mackenzie, B.A., Supervisor of Schools, Sidney, Nova Scotia, who is a specialist in science and mathematics, and had eleven years experience in teaching was accepted. Trustee F. S. Simpson is personally acquainted with Mr. Mackenzie, and speaks very highly of his abilities as a teacher. The salary will be \$1,400.

Miss Ward had tendered her resignation, the secretary reported, and it will be necessary to advertise for another teacher. A few accounts were passed, and a decision arrived at as to fixing up the grounds and the old school buildings, after which the Board adjourned.

The Trimble Cheese Factory

The cheese factory established in connection with the Trimble creamery is now in full blast and gives promise of becoming a very live enterprise in the near future. During the first week of June 16,008 pounds of milk were received by the factory and 1580 of cheese manufactured. This is a splendid start for the factory and no doubt as time goes on a larger business will result.

During the first week in June the Trimble Creamery received 8,925 lbs. of cream and made 2,915 lbs. of butter.

Gun Club Shoot.

The Gun Club held their regular shoot on Monday evening last, when the following scores were made:

B Class—C. Rutter 18, B. Rutter 14, Bryan 14, Willan 12, Higgs 12. C. Rutter gold, Bryan silver, B. Rutter bronze.

DOMINION DAY

Big Sports in Red Deer.

It has been decided to hold a grand field day of sports in Red Deer on Friday, July 1st, Canada's great national holiday.

From this time forward every effort will be put forth by the committees in charge to make the day a success. No stone will be left unturned to add special features to the attractions.

Friday evening the meeting called by T. A. Gaetz, president of last year's committee, in the fire hall, was fairly well attended, and it was decided to organize for a good day's sport this year. The financial statement of last year's affairs showed the finances to be in sound condition, there being \$152.50 on hand after all bills were paid.

Mayor McKee occupied the chair, and brief addresses were given by H. H. Gaetz, Rev. C. H. Huestis, Harry Wallace, Captain Cottingham, T. A. Gaetz and others. Many schemes were brought forward to make the day interesting. It was suggested to have all the school children turn out in the morning and march with the band, with banners and notices, to the town square where they would salute the flag. Others suggested were to have a general trades' procession with floats, firemen, light horse, etc., etc. This will be worked out later.

The following committee was appointed, representing pretty fully all the sporting clubs of the town:

R. B. Welliver, H. Wallace, T. A. Gaetz, Dr. Plaxton, R. C. P. Gee, H. Meeres, Jos. LaFrance, Geo. Wilton, Dr. George, Fred Turnbull, A. R. Gibson, Percy Cottingham.

G. W. Greene and G. B. Parker audited last year's accounts and found all correct.

Among other things it was suggested that there be a display of fireworks in the evening, which met with general favor.

The committee selected is a guarantee that there will be something doing in Red Deer Dominion Day.

The sub-committees are as follows:

Athletics—A. R. Gibson, Wallace, F. Turnbull, T. A. Gaetz; special attractions—Wallace, F. Turnbull, LaFrance; baseball—P. Cottingham, J. LaFrance, R. B. Welliver; trap shoots—Dr. Moore, H. Wallace, Gaetz; racing—R. B. Welliver, Plaxton; patriotic demonstration—Gibson, Gee, Wilton; cricket—Wilton, Gibson; ground committee—Meeres, Gee, Cottingham, Welliver; rules committee—Welliver, Gaetz, Wallace.

Sports.

FOOTBALL

On Wednesday last the first game of the local Football League was played between the School and Town. The Town were not able to get out their best team but they did their best and made things interesting. Silgo in goal and Jock Oliver at back were the mainstays, while Roberts and Kent were good on the forward line. For the School Domoney, Markie and the Huttons played a strong game. The score was 4-0 in favor of the School. Joe La France refereed.

On Friday night the postponed game between the Firemen and School was played. Several of the School team had been hurt and were not able to play, C. Hewson and F. Domoney being laid up and H. Domoney and R. Gee being hurt early in the game. The game was very even, the Firemen having the best defence and the School the best forwards, though the School forwards seemed off color or else they were checked too closely by the Firemen's half-backs. W. Krause, for the Firemen, was probably the best man on the field and Scott and Davis also played a strong game for the Firemen. No scores were made in the first half and it was about ten minutes from the end when Cyril Clarke, getting away in what looked rather like an offside position, put one through the goal that Bob barely reached and the score was 1-0 in favor of the Firemen at time. On the School team no brilliant plays were seen, all playing a rather uninteresting game. E. Hallgren was strong on the defence. Geo. Clarke refereed. The Town and Firemen are scheduled to play tonight.

BASEBALL

A week ago Saturday the School baseball team went down to Olds and were defeated in a good game 8-5. On Saturday last the Olds team came up and the locals defeated them 18-11 in a rather loose game. P. Smith, for Red Deer, pitched good ball, though he saved up his best stuff for Olds. The Red Deer boys hit the Olds pitcher pretty freely. The wind and dust spoiled the game to a certain extent. J. Mann refereed. The Red Deer team in both games was: P. Smith, W. Northey, H. Doughty, W. Syers, L. Gaetz, A. Munro, L. Brown, F. Richardson, and C. Smith. The boys may play Clearview on Friday at the Clearview picnic.

THE VAN SLYKE
BREAKING PLOW.

The Van Slyke Breaking Plow Co. will commence the manufacture of what is known as "The Van Slyke Breaking Plow" in Red Deer. An electric plant is being installed, which will run day and night to satisfy the increasing demand. There are now considerably over one hundred plows ordered, comprised of four horse, six horse and steam outfits. These plows are distributed in many towns, Wetaskiwin, Stettin, Didsbury, Ponikoff, Gids, Innisfail and Lacombe.

The Advantages of this Sulky Plow are:

- 1.—Breaks brush land, prairie and timothy. Furrows never turn back or kink.
- 2.—The draft of the plow is fully one-third less than other plows on the market.
- 3.—Guaranteed to scour gumbo land.
- 4.—It works well in stony land by change in coulters.
- 5.—Much more durable than other plows as it is constructed of solid steel.

Farmers will not be consulting their own interests, if they do not look into this proposition before purchasing elsewhere.

A Peculiar Appointment.

W. A. Beddoe, who becomes Canadian Trade Commissioner to New Zealand, has an Unsavory Reputation.

Ottawa, June 7.—One would imagine that the first duty of a government that desired this country to have a good reputation amongst other nations, would be to select as the representatives who go to these lands, men of high reputation and integrity, men who would reflect credit on Canada. The latest instance, however, is so glaring a case of lack of decency that even the hide-bound friends of the Liberal party have turned upon the government. For instance, Major Henry J. Woodside, the former well known western Liberal editor, has written a letter of protest to the Ottawa Journal, an independent newspaper, protesting against the appointment of W. A. Beddoe as Canadian trade commissioner to New Zealand. Beddoe is the same who had to make himself a mere memory so far as the Yukon is concerned. He came to Ottawa and tried to link up with the Conservatives, but found that Mr. Borden was of principle in the Opposition would have nothing to do with him. Yet he undertook to reveal to the Conservatives some government transactions which would have worked considerable harm to the Laurier party. Beddoe tried hard to get Mr. Borden to use his influence to secure for him the nomination in several constituencies, notably North Renfrew. Mr. Borden, of course, repudiated him. Major Woodside says in his letter: "I know of no good reason why he should be appointed, but perhaps the Ex-minister and M.P., who recommended him, can give over one. If they do not, let us hope that some member will move in the House next session to have the appointment and Mr. Beddoe's antecedents investigated."

"His unpleasant connection with the Beddoe-J. B. Tyrrell libel suit; his more unpleasant withdrawal from the editorship of the Dawson News, and his most unpleasant appointment, first as government official and later as editor of the newly converted 'Nugget' (now World—an appointment which split the Liberal party in the Klondike) are incidents which might be investigated with interest."

"I do not know of an honest Klondiker who had any use for Beddoe and Buell, one of the cleverest cartoonists in Canada, usually represented him either as a double headed snake, or the almighty jaw, in his Dawson masterpieces."

"If Mr. Beddoe was to be sent to some obscure South African country the error would not be so glaring, but to send a man of his antecedents among a people notably high in intelligence, moral standing and commercial acumen, is an insult to the country. The New Zealanders who lived in the Klondike will not be likely to approve him to their countrymen."

Unfortunately, Beddoe's appointment is simply in line with the practice of the government, which seems fond of this class of person. Take the appointment of the notorious W. T. R. Preston as Canadian trade commissioner to Holland. What the people of Holland must think of Canada, judged by their representative, is not a very favorable reflection.

Take another case, the appointment of J. B. Jackson as trade commissioner to China. The courts have just decided a case against him which places him in the position of a common swindler. Donald Guthrie of North Oxford, Ont., sued him for \$2,325 and won. Jackson induced Guthrie to put the money into a wheat deal in Chicago, with the agreement that they should share losses and profits. The sum raised was \$4,500 and Jackson informed Guthrie that this had all been lost. Judgment was given Guthrie at Woodstock for the full amount of the claim with interest.

There was nothing Sir John A. Macdonald was more particular about than that the representatives of Canada should be men who would command the respect of the countries to which they were sent. In no other way can Canada hope to gain the respect of the nations of the world.

The bride was beautifully attired in a dainty white satin gown and wore a smart grey travelling suit. After the honeymoon Mr. and Mrs. Green will likely take up their residence in Sault Ste. Marie. No "Flying Start" required with this Mower

If your mower isn't a Frost & Wood, very likely you have to back it up several feet and get a "flying start" before the knives will cut. That is because it is made on the External Gear principle.

Now, with the Frost & Wood No. 8 Mower the knives commence cutting the instant the horses begin to move. That is because the No. 8 is designed on the Internal Gear principle.

Frost & Wood No. 8 Mower

We could tell you here the difference between External Gear Mowers and Internal Gear Mowers, but it would require a lot of space, and we can explain the difference more readily if you'll drop in and see us. (Lathier & Botterill's old stand.) W. P. LONDON, Agent.

HARD TO BE CONSISTENT.

When a paper plays loose and fast, strives to please everybody, changes its face with every wind, it cannot be taken very seriously by the mass of the people.

The Advocate, as the Liberal organ of Red Deer, gave the Rutherford administration every support. There was never such a government. Every act was lauded to the sky. In payment it received several large grants to publish extra editions, and all the government advertising that was going.

Then came a time when the evil deeds of the government came home to roost. They were shown to be only human and quite commonplace, and when all the people knew of the graft and corruption the Advocate also turned against them and said their guilt was proved to the hilt, and they should give up the reins of government.

It now stands by the Sifton government although one of the ministers, Hon. Duncan Marshall, was a member of the Rutherford government and stood by the acts of that government to the very last.

The excuse is that he was not a member of the government when the Waterways deal was put through and has not been connected with it in any way.

But he stood by the deal as much as it was possible for him to do, and this was the deal the Advocate denounced, and the people don't like it.

The Advocate says "The Liberals of Alberta owe a deep debt of gratitude to the insurgents, to the men who broke from the government support rather than uphold an imprudent and wasteful deal."

But if they had all taken the same stand that Duncan Marshall did what would have been the consequence? Duncan is still the white-haired boy with the Advocate and the Sifton Liberals, while such prominent men as Hon. Mr. Cushing and Hon. Mr.

Buchanan are out in the cold.

Hon. Duncan Marshall has a stronger pull with the Ottawa machine, which cannot loosen its grip on Alberta just yet, than probably any other man in the government, which may explain his present retention in an otherwise fairly strong administration. The time will come when the people of Alberta will no longer stand for such a deal against representative government, and that cannot come too soon.

How We Treat Britishers

A Doukhobor Is A More Desirable Citizen, For He Will Vote Blindly And Without Question.

Ottawa, June 2.—We have now had some experience of Hon. Frank Oliver's new immigration law. It will hardly be pleasant reading for those who believe that the best interests of this country are to be served by bringing into the Dominion the best blood of the mother country to find that a Russian Doukhobor is considered in the eyes of the present government a more desirable immigrant than a British soldier of blameless reputation and who is highly recommended. The people are learning with a vengeance what it cost the country when they returned the present anti-British administration to power.

However it is often better in these cases to rely on the words of the government newspapers so that there can be no doubt upon the matter. Here is what the Montreal Witness says editorially:

"Here is how Canada appears just now, as seen by Britishers at home—a British colony, won with British blood, protected by British arms and British ships, financed by British money, and developed to a great extent by British toil—closed to British men. Canada's new immigration law excludes assisted emigrants who do not go out as farm laborers, or in some other exclusively agricultural capacity. So that the British artisan with a family this is practically a closed, as there are few of them so situated who can cross the Atlantic and find their footing in a new land without some temporary assistance. Those who are in good circumstances are not those who

need to emigrate. The complaint is that not only does the new order exclude 'unsubstantial emigrants,' but that it also excludes good colonists who have guarantees of immediate employment in Canada. An army pensioner, aged thirty-eight, with a wife of the same age, a daughter aged eighteen, and two sons respectively fifteen and eleven, has been refused, although a harness maker in Ottawa, to whom he was going, offered to pay half his fare and give him immediate employment on arrival.

"The man's discharge read: 'Thoroughly experienced with horses; served 20 years 10 days; discharged 6 July, 1908; rank, corporal saddler; from the 18th Hussars; character exemplary; no offence of drunkenness in whole service; a saddler by trade and a good workman.' The Central Unemployed Body for London reported him as of 'good physique, family much above the average.' He had permission from the army authorities in England to commute part of his pension on receipt of a letter signed by the Superintendent of Immigration in Ottawa, saying that he had a prospect of being permanently employed in Canada. But because he was not a farm laborer, but merely a soldier of the King with an exemplary discharge, Canada has refused him. This good man is not a solitary example, but a type of many who have been similarly rejected within the past few weeks. The same society, as an example, has had some twenty or thirty good emigrants rejected in that time, and has now been informed by the Canadian Government officials in London that it is no good sending any more applications on behalf of the non-agricultural emigrants. This is a new version of 'Hands across the Sea,' with a vengeance. This is man's humanity to man.

Eckville

Dan McMillan, road inspector, was in this district last week. The trouble-up at Edmonton may upset the road work for this year.

Mr. and Mrs. Matchett expect their daughter from California to spend the summer.

Mr. Widen preached here last Sunday. Don't forget there will be a service every Sunday during the summer.

The Eckville football team is advertised to play Leslieville on

July 1st. This is the first time we heard of Eckville having a football team.

R. Bruynsema is getting right into farming. He purchased a team of mules at the Welsh sale and is reported to have rented Mr. Welsh's farm.

A special meeting of the Eckville branch of the U. F. A. is called for Friday evening next, the 17th, at 8 o'clock, in the schoolhouse. The want of interest taken in the previous meetings makes it advisable to hold this special meeting to decide whether the branch will be carried on or not. Surely the farmers of this district are in need of combination as much as those of any other. They kick like the proverbial steer anyhow, and now, when they have the chance to help better the existing conditions both locally and all over the province, for every branch adds to the strength of the Union, they do not appear to take hold.

Melita S. D.

The following is the report of the above School District for the month of May:

Standard IV—Gordon Trimmer, Harry Trimmer, Mildred Bradley, Standard III—Tom Trimmer, Lester Johnson, Emma Niekman, Ida Aho, Philmore Johnson. Standard II—Henry Hietala, Jennie May Woodmansee, Standard I—Mamie Kalaputus, Mary Koskinen. Part I—Emma Hietala, Chas. Kalaputus, Willie Huhtala, Weno Kujala. Junior Part I—Mamie Kujala, Olga Huhtala, Davey Hietala, Mat Kalaputus.

Summer Skin Troubles

Sunburn, blistering, and irritation are the commonest form of summer skin troubles, and Zan-Buk ends these very quickly. It works in two ways. As soon as applied, its antiseptic powers get to work and kill all the poison in a wound, a sting or a sore. This generally ends the smarting and the pain. Then Zan-Buk begins the healing process, and fresh, healthy tissue is built up. For sore, blistered feet, sore hands, heat rashes, baby's heat rashes, sore places due to perspiration, etc., you can't equal Zan-Buk. Also unequalled for cuts, ulcers, abscesses, piles, and all inflamed and diseased conditions of skin and subcutaneous tissue. Druggists and stores everywhere sell Zan-Buk, price 50c. box, but you are warned against accepting any of the harmful imitations.

GOLDWIN SMITH DEAD.

The despatches last week recorded the death of Goldwin Smith,
one of the best known men of letters in Canada. The following
sketch of his life will be interesting to News readers:

FAMOUS PEOPLE

BY FANNIE M. LOTHROP

PROFESSOR GOLDWIN SMITH
The Greatest Living Master of Style
In "The Grange," a delightful, plain, brick house, half-concealed by the
network of vines that cover it, with a wide sweep of lawn and grounds filled
with old trees—a whole city block in the heart of Toronto, hedged in by
high walls—lives Canada's venerable author, Goldwin Smith.
This greatest living master of style in the English language, as he has
been called, has had a busy life in his eighty-one years, yet his own words
prove it has been a serene and peaceful one. "According to the Psalmist,"
he says, "if my reason of strength our years be fourscore, yet is their strength
labor and sorrow, but I must say that while I have found none full of the
first, they have been free from the second."
Born in Reading, England, he was educated at Eton and Oxford, gradu-
ating in 1845; two years later was elected a Fellow of University College,
where he acted as tutor for some time, and though called to the bar, he never
practiced. He was prominent in the two commissions appointed to examine
the conditions of Oxford University which led to a number of salutary
reforms. In 1858 he was made Regius Professor of Modern History at Ox-
ford, a post he held for eight years. During the Civil War in the United
States he was a valiant champion of the Northern cause, and on his lecture
tour in that country in 1864 he met everywhere enthusiastic and flattering
receptions and received the degree of LL.D. from Brown University.
In November, 1868, having resigned his chair at Oxford, he again visited
the United States and accepted the professorship of history at the newly-
founded Cornell University at Ithaca, N. Y., where he lived for three years.
On his retirement he went to Canada, being still Professor Emeritus of Cor-
nell, where he was extremely popular with the students, who affectionately
referred to him as "Goldie."
In Canada he soon found recognition and served in a number of posi-
tions that gave him opportunity to render invaluable service to the cause
of education and letters, and on all questions of vital political interest his
voice and his pen were ever heard. The author of books on history, religion,
national politics, philosophy and biography he has to his credit, yet a
far greater bulk of material remains in his constant contributions to the
newspapers—the polemicalists of his little army of peace, a master of style,
a great thinker, a fearless iconoclast, an able champion a tireless worker,
Goldwin Smith has been a mighty influence for good.

Reprinted according to Act of the Parliament of Canada, in the year 1905, by W. C. Mack, at the Department of Agriculture.

FLORENCE NIGHTINGALE
The Angel of the Crimea
In her home in the West End of London, passing the days of the late
Autumn of her life in an invalid chair, lives a white-haired, sweet-faced,
kindly-voiced noble woman, whom the world knows as Florence Nightingale.
Born in 1820 in Florence, Italy, the daughter of a wealthy Englishman, un-
der her loving tutelage she mastered the classics and literature, became a
good musician and learned several languages.
She had a genius for helpfulness, a consecration to humanity that found
expression in sweet ministrations of love and care of the sick and suffering.
In nursing she saw a noble career for women and in 1849 went to a Protestant
school for nurses, on the Rhine. On her return to England she as-
sumed management of a sanitarium for invalid governesses. In 1854 Eng-
land was roused to a white heat of indignation by the revelations of the horrors
of the hospital service of the Crimea. Government incompetency, inebri-
cated red tape, rascally dishonest and criminal neglect in treating the sick and
wounded soldiers made mere war itself a paradise of mercy by contrast.
Dante's Inferno seemed a mild bit of imagination in the face of the real hor-
rors at Scutari, with four miles of beds huddled in one three-story house.
Florence Nightingale volunteered to lead a band of women to transform
the hospitals in the name of humanity, and in November, 1854, with thirty-
eight nurses she reached Scutari. Her magic touch brought order out of
chaos; the sunshine, sweetness and soothing peace of woman's work filled
the rooms; the ghastly mortality was reduced to a minimum; soldiers
wound and dying kissed the shadow of the angel of the Crimea as she
passed near them. Often for twenty hours at a stretch she stood giving
to England, stunning all publicity. The 5300 testimonials collected by her
people, she refused, but finally accepted to found a training school for
nurses. By penny subscriptions the soldiers secured enough to erect a statue
to her memory, but this, too, she rejected. For nearly fifty years she has
been an invalid, and yet this "Grand Old Woman of England," at the age of
ninety is still serene, sweet, helpful and contented, with a name that will be
hallowed as long as the British army and the British nation shall endure.

Saturday was tag day for the Hospital. The young ladies of the Alexandra club worked hard from morning until evening and were rewarded by being able to place in the bank a sum considerably over one hundred dollars. The day was very windy and difficult to navigate, but the young ladies stuck to their guns and are to be congratulated on the result of their efforts.

Ex-mayor Botterill was in town Saturday and put through several important real estate deals. He is really buying more property than selling, and is more confident than ever of bright prospects ahead for the town. He purchased the two lots west of the court house, on Ross Avenue, from P. Pidgeon; sold the two lots back of N. Murphy & Co's. store on Blower street at a good advance; sold three acres on the hill adjoining Judge Lees' residence for \$300 per acre, and sold two lots on Nanton avenue, south of Mrs. Welton's, for a high figure.

SELLING SPECTACLES.

That is quite easy. Anyone can do it, provided a willing purchaser is found. To properly measure a refractive error, and scientifically adjust correctly ground lenses to the eyes in such a way as to remove all discomfort of vision is, however, quite a different matter. It requires much knowledge, experience and common sense. To claim that one knows all there is to know about this or any subject is rather foolish. It is the record that counts.

Many years' successful experience justifies me in soliciting your patronage.

A Chinese boy, a son of Mr. Lee, is now attending school.

A car of mountain shipplap to be sold at less than cost.—W. M. Jarvis.

The Ball Game.

To say that the ball game on Thursday was exciting is to use too mild an expression. Both players and spectators were up on their toes from start to finish. Mayor McKee opened the season by pitching two lovely strikes, the second of which T. A. Gaetz slammed out for a home run or very near it. The Mayor then declared the season open, and Alix took the bat. There was no score in the first inning on either side, but in the second Whitley went to first on Pitman's error and scored on Washburn's two-bagger. In the third inning Alix got two, and it was in the third that Slinger, Alix first baseman, retired from the game after being struck in the cheek by a pitched ball. The rest of the game was all Red Deer's, except in the eighth, when Alix scored three runs in the dusk. The Alix umpire, Leung, then called the game on account of darkness.

The detailed score was as follows:

	AB	R	H	PO	A	E
Red Deer	30	0	0	24	22	5
Alix	30	0	0	24	22	5
Martin 1b	3	0	0	2	7	3
Turner 2b	3	0	0	1	3	1
Edgington 3b	3	0	0	1	0	3
Whitley 4b	2	1	0	1	0	1
Washburn p	4	2	0	0	15	1
Loose 1b	4	2	0	0	0	0
Hann c	4	0	0	0	0	0
Humbley 3b	4	0	0	0	0	0
Smith rf	2	0	1	0	0	0

Summary: Earned runs, Red Deer 1; struck out by Washburn 10; by Hall 7; bases on balls by Washburn 2; hit by pitcher, Slinger, Mann; left on bases, Red Deer 5, Alix 10; two base hit, Washburn; sacrifice hits, Turner, Edgington, Whitley, Mann, Smith, Hall (2), Murray; stolen bases, Turner, 2; Whitley, Edgington, Hall. Umpires, Hanna and Laing. Attendance 250.

The game should have been called at the end of the 7th as it was far too dark to play. Red Deer plays to-day at Weiskiwit with the Bittern Lake team. There will be two games, afternoon and evening. W. Loose will pitch one of them.

Practice nights are now Mondays, Wednesdays and Fridays. The baseball and football clubs have purchased the seats from the dog and pony show, which will add to the comfort of the fans.

Valley Centre

Rev. W. W. Saunders made a hurried visit to Valley Centre, where he was former pastor, and received the warmest welcome. His many friends remember him gratefully for the interest he took in the welfare of the people of the Valley in general, and in particular for his labors in placing an organ in the school for the children and the general public, which all appreciate.

Farmer's Co-Operative Association

At a meeting of the Red Deer Farmer's Co-operative Association directed by it was unanimously decided to appoint James Bower secretary and General manager of the association. E. Carswell takes James Bower's place as president.

Mr. Bower will secure the services of a competent book-keeper to attend to the clerical work. We understand the association will be in a position to market for everything the farmer has to sell. This would be in the nature of a market. If this is the case it will solve the vexed question so long worrying the Town Council, and give the consumer produce at first hand. The innovation will be watched with considerable interest by the citizens at large.
